SOFTWARE FOR TIER II REPORTING

If you would like to have a Tier II software program **(at no cost),** for completing your Tier II's for RY2004 (CY2005) reporting, go the following EPA website: **http://yosemite.epa.gov/oswer/ceppoweb.nsf/content/tier2.htm#t2forms**

EPA has developed **Tier2 Submit 2004** to help facilities prepare an electronic chemical inventory report. For more information about Tier2 Submit you can view or download the EPA **Tier2 Submit 2004 Factsheet.**

If you have any problems downloading a copy of Tier2 Submit 2004, contact the **RMP Reporting Center at: (301) 429-5018** (8am-4:30pm M-F) or via **e-mail at: userrmp.usersupport@csc.com**

This program allows you to make changes each year and saves you from having to retype or fill in the blank Tier II each year.

We request that when preparing the report that you print the Tier II report in landscape rather than portfolio.

NOTE: Effective Reporting Year 2006 (Calendar Year 2007), North Dakota encourages owner/operators to utilize EPA's Tier 2 Submit software for filing Tier II Reports in North Dakota. This notification will allow you two years to acquire and familiarize yourself with this new reporting software for those who choose to utilize it. If you are unable to use this software, please contact Ray DeBoer at 701-328-8112. To learn more about this software and obtain a free copy, please click on the following link http://yosemite.epa.gov/oswer/ceppoweb.nsf/content/tier2.htm.

Once again, this software can be downloaded free of charge from the EPA website at: http://yosemite.epa.gov/oswer/ceppoweb.nsf/content/tier2.htm#t2forms

If you have any questions regarding this, contact Ray DeBoer at (701) 328-8112.
